

VALEXTRA

SHEMESH AUTOMATION
PRUDENT PACKAGING SOLUTIONS

Advanced, high-speed, snap-on capper with smart orientation for round, oval and other shaped lids.

- **Speed:** Models offered in 60-200 products/minute range
- **Lids and containers complete orientation as needed**
- **Built-in quality control & defects reject system**
- **Industry 4.0 ready**

Let us build your vision

22B5

“Perfected over decades of continuous improvement with over 50 models sold globally, **VALEXTRA** has the classic Shemesh DNA: Consistency in production, accuracy, pragmatism, attention to details and robustness. It is a genuinely made-to-last capper of the highest standards in the industry.” **Shai Shemesh**, President

VALEXTRA

Ideal for infant formula packaging, canister wipes or any other snap-on application, **VALEXTRA** was specifically designed to apply round, oval and other shaped snap-on lids automatically,

accurately and consistently to containers. It offers customers multiple orientation functionality (container orientation, lid orientation and lid-to-container orientation).

Quick fact sheet

- **Fully automatic**
- Speed: models offered in **60-200** products/minute range (with orientation)
- **Sanitary** welding, design and build standard
- **Lids and containers orientation** as needed using servo, vision and proprietary mechanical designs
- Built-in **quality control** & defects reject system
- **Explosion proof** and **corrosion proof** models available
- Supporting both **oval, round** and **other shaped** lids and containers
- **Easy** and **fast** to **clean, format changeover** and **maintain**
- Compatible and seamlessly integrates with the rest of the Shemesh product portfolio
- **Industry 4.0** ready

STANDARD SPECS

- **Festo** (Germany) pneumatics and servo systems
- Complete **SST304/316L** design
- **FDA approved piping** as applicable
- **SIEMENS** (Germany) PLCs & HMIs and motors (Allen Bradley – optional)
- **BANNER** sensors
- **E-stop buttons** and **safety interlocks** wired through CAT IV safety controller
- **CE, ANSI, OSHA, NFPA** and **NEC** compliant

“Shemesh demonstrated time after time that they are ‘there’ when it really matters. From the project planning stage, where the line design and building of the kit were very well managed with clear communications at every stage, to delivering the project and equipment on time, and finally the installation stage, where Shemesh had a super professional team in place for installation & training. In addition to this, we are delighted with the productivity and the day to day operation where we all can enjoy production that is accurate and consistent. Today, I perceive Shemesh not only as an equipment supplier but a true partner to our success, and I also consider many within Shemesh friends. I am glad to say that we will surely buy from Shemesh again and I would not hesitate in putting my own name and reputation on the line in recommending the Shemesh brand to anyone who is looking for a reliable partner for their production needs.”

— **Rick Lennard**, Lead Engineer, Beams Packaging Services

Leaving the top hopper post with up/down orientation, lids are subsequently right/left oriented by a smart Festo servo & vision system.

VALEXTRA: Key modules

VALEXTRA: key modules

- 1 Lids bottom hopper
- 2 Lids top hopper for 1st orientation (up-down)
- 3 Lids 2nd orientation (front-back)
- 4 Lids fastener
- 5 Lids dispenser

Basic indicative **VALEXTRA** layout

VALEXTRA's smart top lids hopper is one of two smart hoppers the machine features. The top hopper's proprietary design fastens partially open lids and up/down orientates them as needed.

VALEXTRA's built-in QC and reject system verifies that every product leaving the machine is properly lidded.

VALEXTRA is SST304-made and features high spec components including Siemens motors, HMIs and PLCs as well as Festo servo systems and is Industry 4.0 ready.

“Shemesh Automation is one of my favourite suppliers. Not only their equipment is reliable and innovative, but the people behind this name have also managed over the years to prove to us loyalty and service rarely seen in the industry.”

Gabi Cherniak,
Senior Project Manager, Teva

ATEX

ANTI-CORROSION

For all sales enquiries please contact us via sales@shemeshautomation.com

Explosion proofed & Corrosion proofed

Corrosive or alcohol-based solutions dictate that your equipment is duly fitted to professionally handle these delicate environments. Years of experience in the field made it possible for us to tailor for you the exact protection so your production is safe and stable while your people and equipment are well protected keeping your facility at the top of the range.

All of our machines are constructed using SST 304/316L, and are available with anti corrosive proprietary coating. As well as the machine base, all vital parts such as nozzles and pumps are also specially treated.

Built in ATEX rated commended ventilation systems for flammable fumes evacuation

Clean Machine Finishing

EX approved components such as Siemens motors, Banner sensors and Siemens PLCs and HMIs
