

# SHEMESH

DESPITE THE  
UNPRECEDENTED  
CHALLENGES FACED BY  
THE INDUSTRY DURING  
THE COVID19 PANDEMIC,  
SHEMESH AUTOMATION  
CONTINUE TO INNOVATE!

It is because of that commitment to its 'always forward' ethos, that Shemesh are delighted to debut the Asterra – a Rotary Piston Filling technology suitable for Viscous and Free flowing products.

Not only will Shemesh's team be on hand at the show, to talk you through what makes the Asterra so special, but you will also be able to witness the ASTERRA doing what it does best – live at the show.

Tony Bryant, Shemesh's UK Director commented, "as a PPMA member and

UK ever-present exhibitor at the Show in Birmingham, we are excited to finally return in-person! To mark the occasion, we have really pulled out all the stops and will be debuting our very latest innovation The Asterra – you can see for yourself why we believe it to be so

**28 - 30 SEPT 2021**  
**NEC, BIRMINGHAM**

**STAND B20**

special as we will have the system in full demo mode!

"The team and myself will be on hand to discuss the ASTERRA and our entire range of industry-leading machinery, and after what seems such a long hiatus from physical tradeshow, we couldn't be more excited to welcome everyone back to some sort of normality."
