

FALCON

NET WEIGHT LIQUID FILLING MACHINE

Medium-high speed intermittent linear filler for even the most challenging Abrasive Liquids

THROUGHPUT

- Up to 100 products per minute

COMMON APPLICATIONS

- Soaps & Detergents
- Highly acidic/corrosive chemical products ranging from low to high viscosities
- Abrasive materials
- Oils (edible and automotive)

ENGINEERED FOR ACCURACY & VERSATILITY

- **High Filling Accuracy** at high speeds: +/- 1 gram
- Unique parallel servo-driven indexing conveyor enables continuous container feeding
- **Accurate tub positioning** and stability during high-speed conveying
- **Under 10 mins** tools-free changeover
- Optional enhancements including: Double jacket heated tank with temperature control up to 95°C, built-in CIP, Built-in agitator, ATEX compliance

DEENEX - CONTINUOUS TRAYS DENESTER COMBO FOR FASTER CYCLE TIME AND FOOTPRINT OPTIMIZATION

- Combines seamlessly with our **DEENEX high speed servo-driven denester**
- **Reduces cycle time** by keeping the containers infeed/ outfeed "dead" time related with linear fillers to the absolute minimum
- **Unlocks footprint savings** – make more of your available space thanks to FALCON & DEENEX'S compact design
