Tel Aviv, Israel

Shemesh Automation Stands With Israel

All of us at Shemesh Automation are horrified by the barbaric attack on Israel and the Israeli people. A proudly Israel-headquartered business, we stand by our employees and every Israeli around the world. Those of us who are based further afield are standing in solidarity with our friends, loved ones and colleagues who are on the ground in Israel.

Thankfully, our team in Israel is safe and secure. Our headquarters is located far from the Gaza strip and continue to operate as usual. Our priority is the safety and well-being of our employees, while we remain committed to our customers and broader business stakeholders. Together we can move fearlessly forward to build your vision.

We are an incredibly resilient business and I am convinced that Shemesh Automation is in a strong position to operate successfully in this challenging environment. From the very beginning of our journey over 30 years ago, through many challenging times including past conflicts with Gaza and the COVID pandemic, right up to the present day, our resilience has provided the backbone of our operations. Our business has been built with the strength and robustness you all have come to expect from our machines. We are a global organization with employees located around the world. Our operations, including global services and support, and executive management are diversified, and like every global company, our operating functions are supported from local offices in various geographies.

What's happening in Israel is a human tragedy that's impacting every Israeli around the world. Now, more than ever, we must stand united not just as colleagues, but as a community and do everything we can to support the people of Israel. These atrocities are horrific, but the people of Israel are strong and resilient, and they will prevail. We will prevail.

Shai Shemesh, President, Shemesh Automation

About Shemesh Automation:

With over 30 years in the industry, Shemesh Automation is a global leader in the high-end packaging and assembly machinery and industrial automation appliances manufacturing arena. The private equity backed business supports almost 2,000 assets in over 30 countries around the world. Its nonwovens arm, Shemesh Automation Wet Wipes (www.sawetwipes.com) is a global pioneer in nonwovens downstream packaging equipment with cutting-edge technology positioned at the very forefront of the industry.

Shemesh is represented in 13 countries around the world with offices in the US, UK, France and Israel. Its London-based office coordinates global sales and marketing operations and its Israeli office managing research, development and engineering innovation. Shemesh’s unique combination of UK customer-centric service with an Israeli high-tech mentality to push the technical boundaries, plus the use of tried & tested parts from German manufacturers has greatly contributed to its success. The US market is served by a 43,055 square-foot office in Green Bay, Wisconsin, home to a Demo Center, 24 Hour Service and Parts Center and a large US installed base of packaging machines.

“We don’t see Shemesh as a company that builds just cutting-edge machinery, we want to become your partner of choice for long and successful cooperation. “Let us build your vision” is not just our slogan, simply put, this is what we do, day in and day out!” – Eli Shemesh, Founder.
