## Shemesh Automation Showcases Cutting-Edge Packaging Solutions at 10 Key Events in 2025

Shemesh Automation, a renowned global leader in packaging machinery, is set to strengthen its footprint in key markets across Western Europe and North America by showcasing its latest innovations at ten major industry events. The company's commitment to enhancing automation, efficiency, and precision for manufacturers and co-packers remains at the forefront of its strategy to address the needs of diverse industries such as food, beverages, cosmetics, chemicals and nonwovens.

### Innovative Solutions for Western Europe and North America

The upcoming events will provide an exclusive opportunity for manufacturers in Western Europe and North America to explore Shemesh's Premium Packaging Machinery and Complete Lines, which are tailored to meet the specific demands of these dynamic markets.

### Key Technologies Showcased:

#### - Attilus – Continuous Robotic Trigger, Pump & Screw Capper Machine:

This high-performance machine sets new standards in capping automation, integrating robotic precision for optimal throughput, ideal for high-volume production environments. (add photo machine)

Attilus - Continuous Robotic Trigger, Pump & Screw Capper

- The ALANTRA P is a versatile, all-in-one capping solution designed to handle diverse cap types with precision and efficiency. Tailored for industries like cosmetics, chemicals, and food, it combines flexibility, quick changeovers, and user-friendly controls, making it an ideal choice for modern production lines.

Alantra P – Servo-Based Capping System

- Falcon Net Weight Liquid Filler: Engineered for high-accuracy filling of challenging and abrasive liquids, the Falcon ensures precision for a wide range of viscosities and complex formulations, making it perfect for the demanding needs of North American and Western European manufacturers.

**About Shemesh Automation:**

With over 30 years' in the industry, Shemesh Automation is a global leader in the high-end packaging and assembly machinery and industrial automation appliances manufacturing arena. Currently under second-generation management, the family-owned and operated business, supports over 1400 assets in more than 30 countries around the world. Its nonwovens arm, Shemesh Automation Wet Wipes ([www.sawetwipes.com](http://www.sawetwipes.com)), is a global pioneer in nonwovens downstream packaging equipment with cutting-edge technology positioned at the very forefront of the industry. Shemesh is represented in 13 countries around the world with its main offices in the US, UK, France and Israel. Its London-based office coordinates global ops and its Israeli office takes advantage of the incredible local engineering talent and innovation available. Shemesh's unique combination of UK customer-centric service mixed with an Israeli startup mentality to push the technical boundaries, plus the use of top-notch, quality components within the products and a robust supply chain, has greatly contributed to the company's success. Eli Shemesh, Founder & President says, “We don't just see ourselves as a company which builds cutting-edge machinery, but instead we want to become your partner for a long and successful journey. As such, we pay particular attention to our after-sales to ensure we provide a premium service. ‘Let us build your vision’ is not just our slogan. Simply put, this is what we do, day-in day-out”.
