COMPANY PROFILE 2025/26

Market-leading automated packaging machines from the experts at Shemesh Automation.

We work with a wide range of industries and geographies since 1990.

SHEMESH AUTOMATION 
PRUDENT PACKAGING SOLUTIONS

"As the leading brand in sanitization and hygiene products, an impeccably clean packaging process is impertive. Also, in such a competitive market, achieving maximum process efficiency is crucial to maintaining our competitive edge.

We were so thrilled at how Shemesh's Sambax-Z monoblock achieved both of the above that we did not hesitate to return to Shemesh a year later when we needed a complete sanitisers filling line.

Their machines, service, and industry knowledge really are second to none".

Ron Hoffman, Director of Operations, Durisan, USA.

[/Shemesh Automation.com](https://shemeshautomation.com)

"Since installing the Shemesh all-in-one Xpander wet wipes packer in our UK plant, we are already benefiting from significant reductions in manufacturing costs and waste while seeing an overall improvement in quality. The small footprint as well as the nearly hands-free, smart automation has resulted in extra factory space for us to increase capacity.

Shemesh have really understood our business needs and we have since purchased several more of their machines. It is as much about the people behind this great brand as the machines themselves."

John Prentice, CEO, Allied Hygiene, UK.

"Shemesh demonstrated time after time that they are 'there' when it really matters. From the project planning stage, where the line design and building of the kit were very well managed with clear communications at every stage, to delivering the project and equipment on time, and finally the installation stage, where Shemesh had a super professional team in place for installation & training. In addition to this, we are delighted with the productivity and the day to day operation where we all can enjoy production that is accurate and consistent. Today, I perceive Shemesh not only as an equipment supplier but a true partner to our success, and I also consider many within Shemesh Automation friends. I am glad to say that we will surely buy from Shemesh again and I would not hesitate in putting my own name and reputation on the line in recommending the Shemesh brand to anyone who is looking for a reliable partner for their production needs."

Rick Lennard, Lead Engineer, Beams Packaging Services, UK.

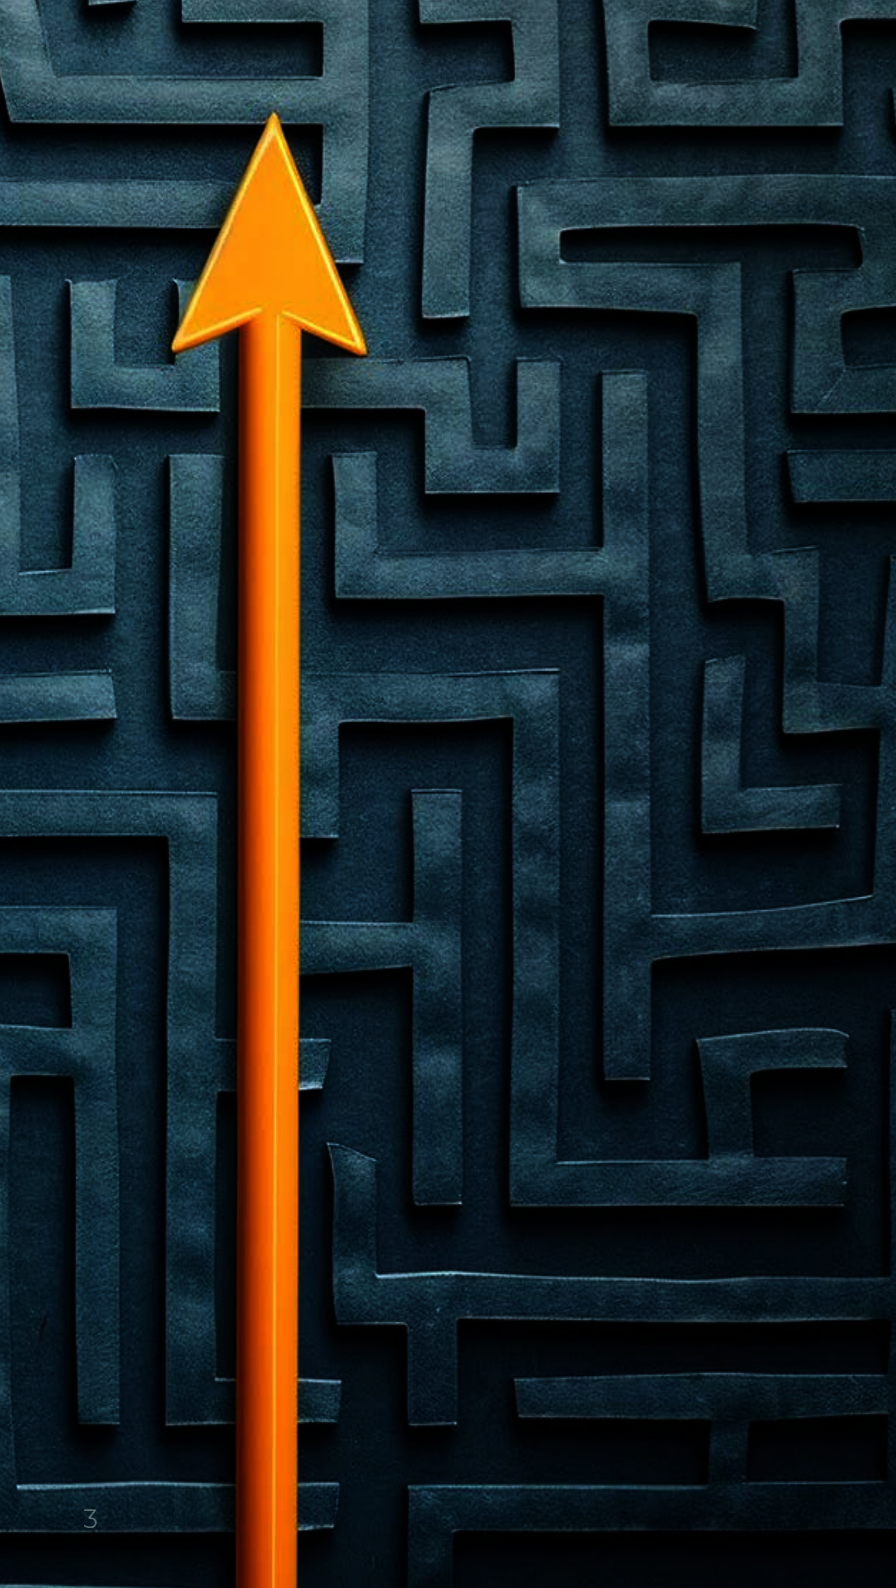

"As a long standing Shemesh Automation customer we knew we were in good hands when decided to buy the MULTI 1 as well from them. What we did not know is our expectations would be completely shattered during this project – in the most positive manner. Not only did communications as well as the entire project were very well managed across multi-cultural, cross-global teams with a constant availability of Shemesh Automation around the clock – but the Multi1 itself would ultimately make us tremble with its accuracy, production consistency, attention to the smallest details and staggering simplicity – all of which are truly overwhelming."

Zvi Nachum, Lead Medical Equipment Development Engineer, I-Med Pharma, Canada.

Global Reach, Local Expertise

WORLDWIDE PRESENCE, PERSONALIZED SERVICE

Shemesh Automation operates globally with headquarters in London and state-of-the-art R&D and manufacturing facility in Israel. We maintain operational centers in France and the USA, supported by a network of trained sales and service representatives in approximately 15 strategic locations worldwide.

Our commitment to being close to our customers means offering personalized service in local languages and providing rapid support through professional representation networks. This 'partnership-first' approach has earned us long-standing client relationships built on trust and reliability.

Innovative Minds, Superb Engineering – Our Edge

Shemesh Automation designs, manufactures and integrates premium filling, capping and end-to-end packaging machinery lines for both flexible and rigid packaging. Our systems are designed to enhance your production in a smarter and more cost-effective manner. Our feature-rich products offer accuracy and consistency, strict waste management, minimum downtime, safety, product protection, quality control, operational flexibility and long-term reliability. We do this all under one umbrella, leveraging our innovative approach and engineering expertise.

Working across all industry sectors, we have built a reputation for quality, both in terms of our well-known Israeli engineering excellence and unparalleled London-based customer service. In addition to our core solutions – feeding, loading, filling, capping, sealing, labelling, packing and palletizing –

Shemesh Automation offers turnkey applications as well as monoblock and custom machines.

We are also at the forefront of the wet wipes industry. Shemesh Automation Wet Wipes (www.sawetwipes.com), our nonwovens operating arm, is considered a world leader and pioneer of nonwoven downstream packaging solutions.

As a private equity-backed and globally operating business, our unique mix of people and expertise builds the trust needed for long-term partnerships. And, with over 35 years' experience in the packaging industry, producing high-quality solutions for major global manufacturers and supporting over 2,000 machines in over 30 countries, not many others understand today's business needs and while delivering tomorrow's solutions as effectively as Shemesh Automation does.

From single-unit feed to complete packed cases on pallets, Shemesh doesn't only integrate but design and make complete **A-Z** packaging lines, delivering the advantage of a true one-stop shop service. Moreover, no other company in the world offers our blend of Israeli high-technology mindset combined with a London headquarters and European business mindset for service and business conduct.

But that is exactly what Shemesh Automation is: a PE-backed business founded by a veteran engineer, father, overseeing the technical and manufacturing operations out of Israel together with his son, a London-based lawyer by education and a European banker by experience, who has presided over a period of substantial business growth since joining out of London as Managing Director in 2013.

GLOBAL IMPACT, PROVEN DEMAND

- 90% of Sales Exported Worldwide: Demonstrating global demand for our innovative solutions.
- Regular Attendance at International Trade Shows: Showcasing our technologies at six major events annually.
- Custom-Tailored Solutions: Precision-engineered systems designed to meet and exceed unique client requirements.

DELIVERING EXCELLENCE THROUGH CUSTOMIZATION

Our experienced project management teams ensure seamless implementation of comprehensive systems. We specialize in tailored machines and turnkey solutions to meet diverse packaging needs. From design to installation, we deliver excellence at every step of the process.

COMMITTED TO LEADERSHIP AND GROWTH

Shemesh Automation continues to push the boundaries of innovation, setting high standards to remain a trusted partner and global market leader. Our focus is clear—excellence in every class, every project, and every partnership.

Smarter Manufacturing with **Industry 4.0** and **AI** embedded solutions able to predict faults and much more

Your Partner in the Smart Factory Revolution

Smart Machines Driving **Industry 4.0** with AI

Smart Machines with AI-Powered Monitoring and Predictive Maintenance.

- Streamline your production with AI-driven solutions like Process Vision and Predictive Maintenance. Our systems deliver fast, high-quality responses for identifying, classifying, and managing line events—enhancing performance with real-time monitoring, fault prediction, and autonomous execution.
- Optimize critical processes, detect relevant events, and automate operations to maximize efficiency, minimize downtime, and extend equipment lifespan.

Connected Worldwide – 4 Global Headquarters, Infinite Solutions

Our advanced manufacturing facilities, including two state-of-the-art plants and a dedicated R&D center in Israel, position us at the forefront of technological excellence.

Leveraging Israel's renowned expertise and innovation-driven mindset, we ensure seamless development and continuity through government-supported R&D programs.

SHEMESH AUTOMATION UK

UK headquarters, president's office, marketing strategy, business development, sales and technical support. UK team tech centre featuring state-of-the-art machinery.

SHEMESH AUTOMATION ISRAEL

Global headquarters, operations, R&D, engineering and manufacturing, state-of-the-art factory and logistics centre, sales and after-sales support, spare parts inventory.

SHEMESH AUTOMATION FRANCE

Bopak SARL Building, European headquarters, French team tech centre featuring state-of-the-art machinery showroom, European logistics, sales and after-sales support.

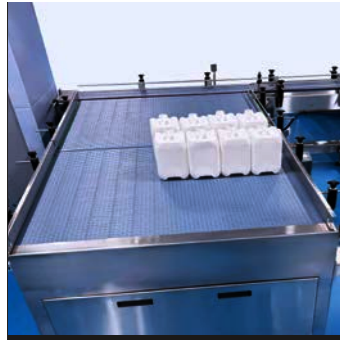

SHEMESH AUTOMATION NORTH AMERICA

American headquarters, USA team tech centre featuring state-of-the-art machinery showroom, North American logistics centre, sales and after-sales support, spare parts inventory.

Product overview

Single Modules

Front Line

- Feeding machines
- Denesters
- Unscramblers
- Rinsers
- Conveyors and conveyors feeding systems feeding

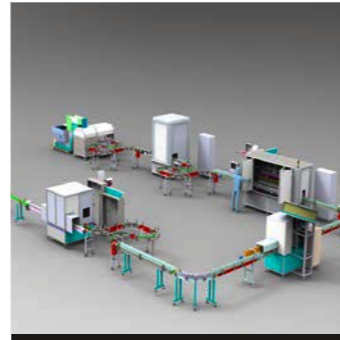

Core Line

- Loading machines
- Filling machines
- Sealing machines
- Capping machines
- Labelling machines

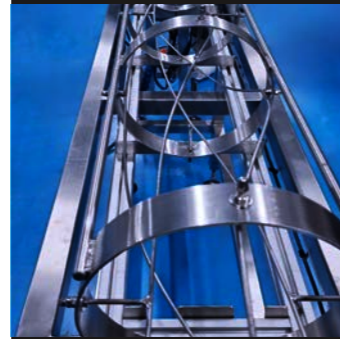

End of Line

- Case packers
- Palletisers
- Depalletisers

Turnkey Systems

- Semi or fully automatic
- In-line configurations
- Monoblock configurations (fill seal cap label and QC on one machine)

Customer Based

- Tailored solutions for specific client requirements (includes industrial automation, logistics, or unique solution development)

Customer Based

- Full range of quality control
- Check weighers
- Metal detectors
- Sealing thermal imaging integrity analysis
- Consultation

Rigid packaging

- Glass
- Plastic
- Metal
- Standing containers
- Unstable containers

Product characteristics

- Liquids
- Pastes
- Powders
- Granules
- Fragments and Particules

Closures & Lids

- Screw, Snap on, Press-in & on, Twist-off
- Stoppers, drop or spray inserts
- Drop or Spray Inserts, Peel-off Foil Lids
- Crimp / Crimpless, Flip-Top Closures
- Trigger, Spray and Pump Closures

All Shemesh machines are available with ATEX or Corrosion proof upgrades.

Applied Materials, Products & Closures

Flexible packaging

- Stand-up Pouches
- Spouted Pouches
- Zipper Pouches
- Retort Pouches
- Sachets and Packets

Industry sectors

We manufacture and support our filling and packing machines for use across a wide range of vertical markets. While our Custom Solutions service provides for any market sector we also have extensive expertise supporting blue chip organisations in the following areas:

COSMETICS

CHEMICALS

FOOD & BEVERAGE

NONWOVENS

PHARMA

CUSTOM SOLUTIONS

Front Line Automatic Packaging Machines

EXPERTS IN 'HANDS-FREE' AUTOMATION: SHEMESH'S FRONTLINE MACHINERY ENABLES FULL PRODUCTION LINE AUTOMATION.

Wide Range of Front Line Technologies to Meet the Full Spectrum of Applications.

Hopper-Fed Vertical Caps Elevator

Containers Feeding Machines

Lid/Cap and Buckets Denesters

Bottles Descramblers

Rinsing Machines

Full QC

Core Line Packaging Machinery

CORE LINE MACHINERY IS THE BACKBONE OF EVERY PACKAGING LINE, AND SHEMESH AUTOMATION ENSURES FLAWLESS PERFORMANCE THROUGH PRECISION AND INNOVATION.

We utilize a variety of technologies to ensure that the machine we build for you is perfect for filling your specific solid and liquid product, whether it is:

Automatic Liquid Filling Machines

Automatic Solid Filling Machines

Automated Capping Machines

Automatic Conduction Sealing Machines

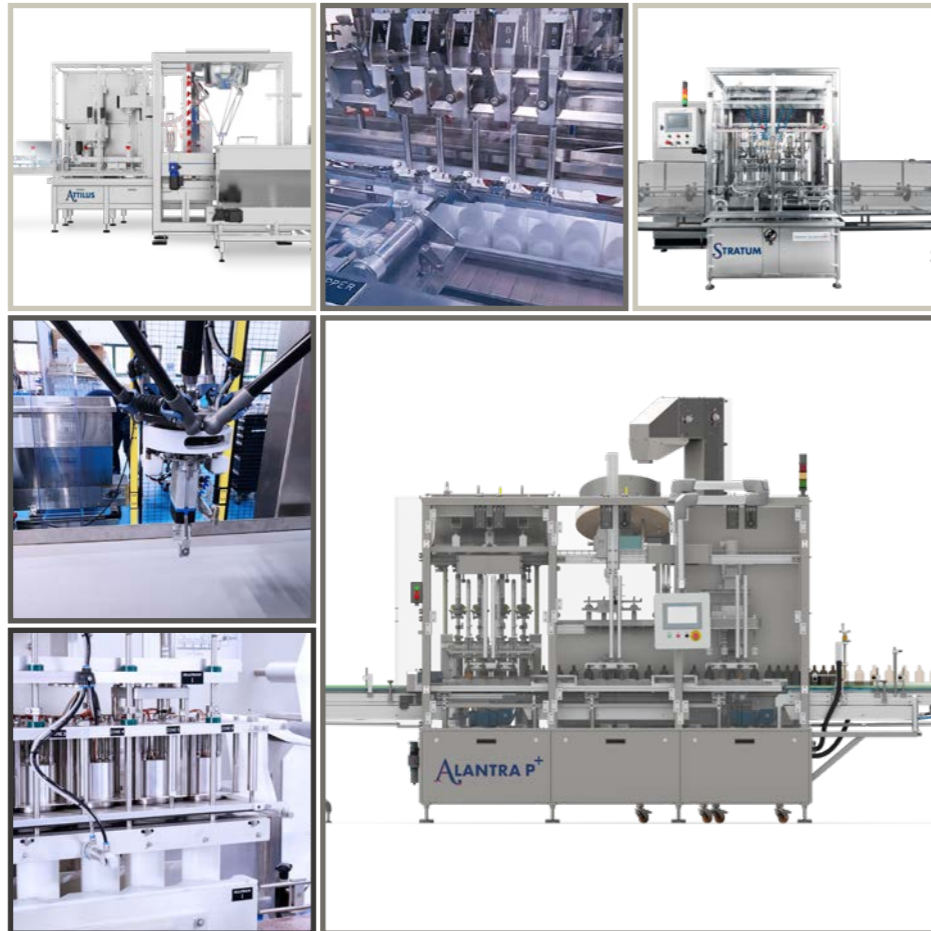

Automated Loading Machines

Automatic Labelling Machines

Full QC

Automation.com

End of Line Packaging Machinery

WITH PALLETS CENTRAL TO MODERN STORAGE AND TRANSPORT, SHEMESH AUTOMATION OFFERS PROVEN END-OF-LINE PACKAGING SOLUTIONS FOR ANY PRODUCT.

Our range of end-of-line case and tray packers includes the all-in-one servo-driven RELENTLESS solution.

Case Packers

Palletisers

Depalletisers

Full QC

Automation.com

Complete Turnkey Packaging Solutions

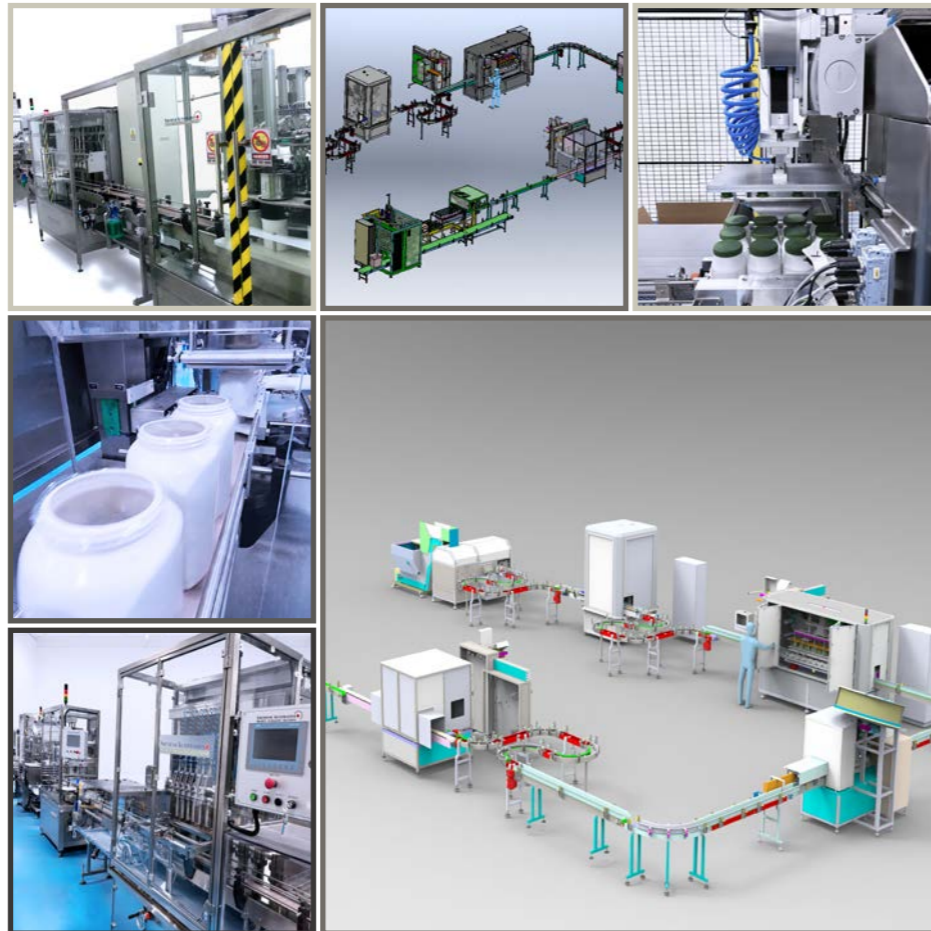

Turnkey lines integrate our top-selling premium machinery across multiple sectors.

- Food & Beverage
- Chemicals
- Cosmetics, Health & Beauty
- Pharma
- Nonwoven

[/Shemesh Automation.com](https://www.shemeshautomation.com)

FROM A - Z, SHEMESH AUTOMATION DELIVERS TURNKEY PACKAGING SOLUTIONS THAT POWER YOUR PRODUCTION LINE WITH PRECISION AND EASE.

Monoblock Filling Machines

Whatever your product type, Shemesh offers the perfect monoblock system and solution to meet your needs.

- Bag, Bottle, Canister, Container Feeding
- Bag, Bottle, Canister, Container Placement
- Bag, Bottle, Canister, Container Closure
- Full QC

[/Shemesh Automation.com](https://www.shemeshautomation.com)

SHEMESH AUTOMATION BOASTS A SERIES OF UNIQUE ALL-IN-ONE MONOBLOCK PACKAGING SOLUTIONS, ENCOMPASSING ALL ASPECTS OF DOWNSTREAM PACKAGING INCLUDING FEEDING, FILLING, CAPPING, WEIGHING, LABELING QC AND DISCHARGING.

Case Studies

SHEMESH SMASHES SAUCE PRODUCTION FOR YELLOWBIRD WITH 100PPM FILLING, CAPPING AND LABELLING LINE.

Client: Yellowbird Foods, a Top 10 sauce brand and premium sauce manufacturer, and a leading supplier on Amazon.

Challenges:

- Yellowbird Foods' sauces are made with fresh fruits and vegetables, resulting in a smoother yet more viscous texture than standard sauces.
- Precise viscous filling expertise was required to ensure accuracy and consistency.
- The surge in demand necessitated an upgrade from a semi-automatic dual-head filler to a high-throughput, fully automated solution.

Solutions:

- STRATUM II: An advanced in-line automatic filling system with servo-driven pistons and diving nozzles, capable of handling a wide range of viscosities and particulates.
- THORO II: A robust, servo-driven, double-station capper ensuring precise, leak-free capping.
- LWA Series: Shemesh's flagship labeling machine, delivering ultra-accurate wrap-around labeling with pressure-sensitive, paper-plus-matte finish labels, giving Yellowbird's iconic bottles a premium final touch.

Achieved Results

- Enhanced Throughput: The new system achieved production speeds of up to 100 containers per minute, depending on bottle size.
- Cost Efficiency: The automation reduced the need for multiple production lines, minimizing capital expenditures, space, and utility consumption.
- Consistent Quality: The equipment maintained the sauces' smooth texture and bold flavors, meeting customer expectations.

Case Studies

SHEMESH MULTI-RANGE GIN FILLING & CAPPING LINE AT BEAMS PACKAGING SERVICES

Client: Beams International Ltd. A leading supplier of food, beverage and lifestyle gifting. The partner of choice for retailers and brands wishing to fulfil their gifting aspirations.

Challenges:

- Beams Packaging Services, a leading contract manufacturer in the spirits industry, needed a versatile, high-speed gin bottling solution capable of handling multiple bottle sizes, shapes, and closure types.
- With a growing product range, they required a fully automated system that could accommodate different container materials (glass & PET) and multiple cap styles, including screw caps, corks, and T-caps, all while maintaining precision, efficiency, and top-quality sealing.

Solutions:

- Multi-Container Servo-Driven Filling System – Ensuring accurate dosing across different bottle shapes and materials.
- Advanced Automatic Cap Sorting & Placement – Accommodating screw caps, corks, and T-caps with precision.
- High-Speed Capping Technology – Secure torque application for various closure types.
- Rapid Changeover Mechanism – Optimized tooling and automated adjustments for switching between formats.
- Inline Vision Inspection & Quality Control – Verifying fill levels, cap positioning, and closure integrity.

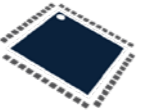

Achieved Results

- Enhanced Flexibility: One system efficiently handles multiple bottle sizes and closure types.
- Maximized Production Output: High-speed operation with minimal change-over downtime.
- Improved Product Quality & Consistency: Precision filling and capping for premium spirits packaging.
- Optimized Automation & Efficiency: Reduced manual intervention, increased reliability, and lower operational costs.

ADDING VALUE TO OUR CLIENTS

Our people are our most important asset and with our manufacturing sites located in the high technology powerhouse of Israel, this gives us access to some of the best minds in the industry. With the skill set of the pre-eminent Israeli hi-tech community at our disposal, innovation is naturally embedded deep within our mindset and indeed our most exclusive product portfolio. Many times, we have seen our products leapfrog competitors, revolutionise working practices, disrupt markets and substantially impact the bottom line of our clients.

LOCAL SUPPORT – NORTH AMERICAN, UK, EU & MIDDLE EAST

Shemesh Automation provides strong, localized support across the North America, UK, EU, and the Middle East, ensuring that your production lines remain at peak performance. Our dedicated regional teams offer rapid response times, expert technical assistance, and a robust supply of genuine spare parts, so you can count on reliable service whenever you need it.

Whether it's preventive maintenance, emergency repairs, spare parts ordering, or on-site service, Shemesh Automation is committed to providing comprehensive after-sales support tailored to your region, helping you maximize uptime and efficiency with expert engineers always within reach.

Partnering with Shemesh Automation, our customers don't simply get a machine, but engage in a meaningful, long term relationship through which they can build their business on our experience, knowledge, reliability and, most importantly, integrity. Our clients know that we are right behind them, everywhere, always. After all, their success is ours too, pure and simple.

THE ONE-STOP-SHOP ADVANTAGE

We deploy our expertise and leading edge technology to support our customers, providing them with added value as well as the necessary competitive edge to advance in global markets. As expert machine designers and system integrators we offer a complete end-to-end service. We can supply everything from a single component to a turnkey solution for a full production line.
